

# VIENA CARDIGAN

## Sewing Guide

## VIENA

The #Vienacardigan is a versatile and easy to make cardigan inspired by a [painting I saw in the MUMOK](#) museum of Vienna.

The construction is calculated to obtain a minimum waste.

You can adapt it to your size and the width of the fabric you use will depend on it.

## MATERIALS

You will need between 1 and 1.5 meters of knitted fabric of 1.5 meters wide.

Use a fabric with some texture or interesting color, the back of the fabric will be visible, take this into account when choosing your materials.

It can be thin or a little thick, you will get different results but both are really nice.

## VERSIONS

I propose two versions to draw this cardigan. A and B

The only difference between the two is the way to cut it, one produces less waste than the other.

For version A I also propose a cuff that I **only recommend** if you are using a thin fabric.

now.. lets play !!!

# VIENA CARDIGAN

## MEASUREMENTS

We will draw this cardigan using our own measurements. To draw the pattern lines you can use pins or tailor chalk.

We'll need the following measurements:

A: Shoulder

B: Armhole depth

C: Cuff circumference

D: Sleeve length

**Don't forget to add the sew allowance, for this project I recommend 1 cm.**

VERSION A

VERSION B

# VIENA CARDIGAN

## DRAWING VERSION A

-Place your fabric on fold.

-On the fold line, mark out the half length of your fabric.

-From that point and inward measure the half of the shoulder ( $A/2$ ).

- From there, measure the half of your armhole depth ( $B$ ) to one side and the other half to the other side.

-Join this two points together by drawing an oval.

-Now on the right end of the fabric measure two times the armhole depth ( $B \times 2$ ) This will be the crown of our sleeve.

-From this line towards the fabric measure the Sleeve length ( $D$ ), making several reference points.

-Make another line joining this points together to make a square and mark half of that line.

-From this point measure half of the cuff circumference ( $C$ ) to one side and half to the other side.

-Make a line to join this points to the corners of the square. This will be our sleeve.

-Cut the pieces and let's sew it.

# VIENA CARDIGAN

## SEWING VERSION A

1.- Fold the sleeves and the left triangles (if making the cuff) in half facing the rights together.

2.- Sew the sleeves on the sides and the triangles on the width. Turn outside out.

3.- Face the rights side of the triangles with the right side of the cuff and border it overlapping it at the end about 2 cm approximately. Cut the excess, sew around the cuff and repeat with the other arm.

4.- Sew the sleeves to the cardigan facing right sides.

5.- Made a simple hem around the edge of the bodicde and your Viena cardigan is ready!!

# VIENA CARDIGAN

## DRAWING VERSION B

-Place your fabric on fold.

-On the fold line, mark out the half length of your fabric.

-From that point and inward measure the half of the shoulder ( $A/2$ ).

- From there, measure the half of your armhole depth ( $B$ ) to one side and the other half to the other side.

-Join this two points together by drawing an oval.

-From the right end of the fabric inwards measure the length of our sleeve ( $D$ ), make several reference points and draw a parallel line joining them together.

-In that line measure the armhole depth ( $B$ ) and half of the cuff ( $C/2$ ).

-In the end right of the fabric measure half of the cuff ( $C/2$ ) and the armhole depth ( $B$ ).

-Join these points drawing two lines. These pieces will be the sleeves.

-Cut the pieces and let's sew it.

# VIENA CARDIGAN

## SEWING VERSION B

1.- Fold the sleeves in half facing the rights together. Sew on the side and turn outside out.

2.- Finish the cuff with a simple hem

3- Sew the sleeves to the cardigan facing right sides.

4-Made a simple hem around the edge of the bodice and your Viena cardigan is ready!!.

# YOUR VIENA CARDIGAN IS READY!!!

How is it?  
What version did you made?  
What fabric did you use?  
I want to see it!!!!
